

## Invitation SARC User Day April 7, 2017

We would like to invite you for our SARC User Day which will be held on April 7, 2017 at the Amstel Boathouse, located nicely at the banks of Amstel River, in Amsterdam.

Throughout the day there will be several presentations on the developments of PIAS and LOCOPIAS over the last few years and we will present you an overview of our plans and developments for the future. We are especially proud to welcome Prof. dr. Volker Bertram (DNV•GL) with a keynote address on the ship design process, where he will focus on how the naval architect generates designs, evaluates them in simulations, visualizes designs and results, and learns from them. Furthermore, representatives of Conoship International and CADMATIC will present and demonstrate the PIAS-CADMATIC ship design and engineering tool, which is at present under joint development.

During the day, there will be plenty of opportunities to meet us and your fellow naval architects. The program starts at 09:30 with coffee and ends by 17:00 with drinks, and includes a lunch at noon. Further time and place details can be found below. In order to be able to prepare a smooth day, we would kindly ask you to register for this event not later than Friday March 31, at <http://sarcuserday.app.rsvpify.com/>

We are looking forward to meet you on April 7, and we are confident that this day will be very interesting for beginning as well as experienced users of our software. If you have any questions regarding this event, please contact us through [sarc@sarc.nl](mailto:sarc@sarc.nl) or call us at +31 85 040 9040. During the day we can be reached on +31 6 20 35 63 21.
